Business Update Release

Silver Touch Technologies Limited to Lead National Medical Commission's Digital Transformation Initiative

Ahmedabad, 6th November 2025: *Silver Touch Technologies Limited*, a leading digital transformation and IT services company, has been awarded the prestigious mandate to manage and modernize the **National Medical Commission's (NMC) Digital Mission Mode Project (DMMP)** under the Ministry of Health and Family Welfare, Government of India.

The project represents a cornerstone in India's healthcare governance, marking a critical shift toward **data-driven, transparent, and citizen-centric medical regulation**. Silver Touch will act as the **Managed Service Provider (MSP)** responsible for the **complete takeover, modernization, and operation** of NMC's digital ecosystem — covering 27 integrated modules, cloud infrastructure, and the National Command and Control Centre.

Empowering India's Healthcare Governance with Technology

Under this engagement, Silver Touch will revamp the existing systems using **open-source, cloud-ready, and AI-powered architectures**, enabling enhanced performance, real-time monitoring, and interoperability across stakeholders — including medical colleges, state medical councils, universities, and healthcare institutions across India.

This initiative will improve efficiency in:

- **Medical education regulation**, ensuring faster approvals and transparent processes.
- **Doctor registration and verification** through secure digital workflows.
- **Data-driven policy decisions**, powered by analytics dashboards and AI tools.
- **Public transparency**, with digital access to verified information about medical institutions and professionals.

Advancing Global Health Standards and UN Sustainable Development Goals (SDGs)

The NMC digital modernization aligns closely with the **United Nations Sustainable Development Goals**, particularly:

- **SDG 3: Good Health and Well-being** – by enhancing the regulatory quality of medical education and healthcare delivery.
- **SDG 4: Quality Education** – through transparent, technology-enabled medical education governance.
- **SDG 9: Industry, Innovation, and Infrastructure** – via the development of resilient digital infrastructure supporting India's health ecosystem.
- **SDG 16: Peace, Justice, and Strong Institutions** – by ensuring transparent, accountable, and responsive digital governance.

Silver Touch's approach will integrate **AI, cybersecurity, microservices architecture**, and **regulatory-grade cloud infrastructure**, ensuring compliance with **MeitY, CERT-In, and DPDP guidelines**.

Silver Touch Technologies Limited

Commenting on the appointment, Mr. Himanshu Jain, Executive Director of Silver Touch Technologies Limited, said:

We are honored to partner with the National Medical Commission in this landmark digital transformation, This project is more than a technology implementation — it's a mission to strengthen India's healthcare governance, empower institutions through transparency, and align our digital infrastructure with global standards.
